1. f. p23
2. a. p21
3. d. p19
4. e. p27
5. j. 18
6. h. 21
7. I. 20
8. c. 32
9. b. 31
10. g. p27

Essay:
Objective: Distinguish between the various terms relation to public perspectives.
Level: Intermediate
1. What do scholars mean when they suggest that the news media do, in fact, overdramatize crime?

Answer: Scholars contend that the media often overdramatize crime by creating the impression of crime waves and focusing too much attention or over reporting on uncommon crimes such as serial killings.
Objective: Explain how the news media overdramatize crime.
Page number: 21-22
Level: Intermediate

2. Explain what structural factors are and what role they play in creating criminogenic environments.

Answer: Structural factors focuses on community characteristics such as the level of social integration (e.g., how well people know their neighbors), the quality of the living conditions of a

neighborhood (e.g., are there many abandoned buildings), and the proportion of people of color in. These areas, generally, have a high fear of crime.
Objective: Explain the structural factors and individual characteristics that relate to fear of crime.
Page number: 27-30
Level: Difficult

3. Explain why people of different races, ages and social class may have different opinions about the police.

Answer: African-Americans and Latinos are more likely than whites to have negative experiences with the police (e.g., being stopped or insulted by police). Second, they are also more likely to live in high-crime neighborhoods where police–citizen relations are contentious. Younger and poorer people also hold more negative views of police.
Objective: Explain why racial and ethnic differences exist in views about the police.
